

My name is Kamal Dajani. I am a senior attending Michigan Islamic Academy. I am conducting my Senior Project on the effectiveness of homeopathy. My project investigates the effectiveness of homeopathy versus conventional medicine. My research compares the side effects that both treatments have on an individual. I would appreciate your participation in this questionnaire. Your feedback will be valuable in allowing me to thoroughly research my topic. Thank you for your participation.

Questionnaire

1. Have you ever taken homeopathic medicine?
